Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Discussed the shape being crescent. Examiner indicated shape has been held to be within the level of a skilled artisan (In re Dailey). Further, the shape as claimed may be very broadly interpreted. The examiner indicated that the specification has no criticality associated with a crescent shape and in fact discloses the shape to be application dependent. The device in Figure 9 of Beaudry could be interpreted as crescent.
